

AGRIPPA

Deaf Alert

Home pillow alarm for the deaf and hard of hearing

Product description

The Agrippa Deaf Alert is a digital, vibrating pillow alarm that alerts the deaf or hard of hearing in the event of a fire in their home.

Using 'listening' technology, if the supplied smoke detector sounds, the Deaf Alert provides a visual warning and vibrates the pad under the user's pillow, while they are sleeping.

The Deaf Alert offers a compact and portable solution with an alarm clock function. The unit is mains powered with a backup battery supply, offering a flexible and reliable solution to give peace of mind.

Technical information

Dimensions	L120mm x W120mm x D90mm
Weight	380g
Battery type	4 x AA alkaline cells
